Thur	Gardening – Louise Life skills club - Magda	Thur	Table Tennis– Dara <i>2nd to 6th Class</i> Ukulele – David Life skills club - Magda

Art (junior & senior infants)

The children will have lots of fun as there is no wrong way to explore art; there are just different ways of looking at it. Each term we do different things to keep this club fresh and new! (This could get messy, so parents please consider providing an old shirt for your child, to save their clothes or even dress them in clothes that won't matter if they get dirty on this day). **Leader – Gina**

Craft (junior & senior infants)

Are you creative ? do you like making things ? if yes well this is the club for you. Alison will be teaching the children how to use Binca fabric – with this they can do some very small stitches and make a small mat which can be framed. There will be lots of other exciting and fun things to be made in this club. **Leader - Alison**

Creative Writing (1st to 6th Class)

More about the creativity than the writing. Grammar, punctuation, spelling, good handwriting and all the other more technical elements of writing are hugely important for the effective communication of your story but they are **NOT** the province of this club. Sure, they'll be in the mix; but as tools not rules. In this club our aims are to normalise tapping into that mysterious thing we call creativity, tell the stories we all have to tell and, of course, to have fun! **Leader - Seán**

Dance & Drama (Junior & Senior Infants)

Dance and Drama help to increase the degree of thinking, feeling and movement. It enhances cognitive, affective and motor development. Drama teaches children life skills, communication and socialising skills. Music and dance frees the spirit and brings out the creative forces in children and it is fun! **Leader – Hannah**

*The School does **not** run the Clubs so they won' t be able to answer your questions directly.*

Drawing (2nd-6th class)

Find your inner artist in the drawing club! Drawing is the place where you deconstruct the world you see and form your own. Whatever it is you want to draw, this club will help you find ways to do it. All you need is a pencil and a good dose of curiosity. Get all of this in the drawing club! Open your mind and be creative. **Leader – Kristina**

Gardening (Junior & Senior Infants)

In this afterschool garden club, kids learn the basics of gardening through fun and exciting hands-on activities. Discover the secrets of soil and composting, and meet some wriggly worms. Plant veggie and flower seeds, tend seedlings and later transplant them into the Children's Garden. Explore the Garden's insects and birds and create wonderful habitat for them. This is a fun, hands on club for little people who love being outdoors. **Leader - Louise**

Garden maintenance & woodwork (1st-6th class)

This is the gardening club for the bigger kids. This club will have a nice mix of planting bulbs, vegetables, painting garden furniture and making wooden planters. Most importantly it is outside in the fresh air for an hour after school. **Leader – Mario**

Karate & Self Defence (1st-6th class)

Karate is a martial art in which the body, mind and spirit are simultaneously developed to realise one's full potential as a human being. Its strenuous physical nature takes students on a journey of empowerment and spiritual growth. This is an introduction to the art of Karate. It will be taken by Sorcha McCorry who runs the WSKF Karate Ireland and Self Defence in Skerries. She has just returned from the world championships in Japan where she won 3 bronze medals. She is really excited to be running this club in SETNS. **Leader - Sorcha**

Lego (All Classes)

This club offers children a chance to improve dexterity, use their imagination through learning play with Lego and other construction sets. They will have lots of fun creating, inventing, building and changing their minds to create all over again. This club is bound to be fantastic fun for everyone! **Leaders - Anne (Infants) & Antoinette (1st to 6th Class)**

Life skills (All classes)

Run by Magda from yoga club, this club aims to equip the children with communication, team-building and problem solving skills. It hopes to ignite their creativity and imagination through fun games (both indoor and outdoor), stories, movement and elements of yoga and mindfulness. As Magda is also a scout leader, this club will have elements of that. **(Leader – Magda)**

Science (All Classes)

'Why is the sky blue Mammy?' 'How do plants grow?' When a child asks this kind of question they have taken the first step into the world of science and in Science Club they'll discover what it's like to take the next: finding answers to those questions. Also we'll be doing lots of cool, fun stuff! **Leader – Sean**

Super you – (1st-6th class)

This is a new and exciting club this term – in this club your child will help your child learn how to control their thoughts, emotions and behavior in a mindful way using NLP (neuro-linguistic programming) techniques and strategies. This is done through fun and interactive games which are easy for children and preteens to use in their daily lives. NLP is highly effective in helping children to overcome stress, fears and anxiety. It also helps to build on self esteem issues. It encourages children to focus on what they love doing. Join in – it will be fun ! **(Leaders – Jo & Viktoria)**

Tabletennis (2nd-6th class))

With our newly acquired table tennis table, Dara is taking on a new club to give those interested the skills needed in becoming accomplished in the game. Once learned the skill of tabletennis is never lost. Come along, learn a new skill and most of all, have fun. **Leader – Dara**

Tin whistle (1st-6th class)

Those who want to learn to play a few notes on the tin whistle are welcome here. Learn to play your favourite tunes and have fun in the process. In this club you will find gentle encouragement to learn or improve your tin whistle skills. Beginners or novice players only please ! **Leader – Ciara R**

Ukulele (2nd to 6th Class)

In this club the children will have fun learning how to play the Ukulele. This club will promote commitment and a sense of pride and achievement as they begin to realise that they themselves can make music happen! This in turn will be great for the children's confidence. A ukulele will be provided for the duration of the club term. Children will be allowed to bring their ukulele home each week to practice on. **Leader – David**

*The School does **not** run the Clubs so they won't be able to answer your questions directly.*
